

ABOVE SEA LEVEL | INFOGRAPHIC

Process Book

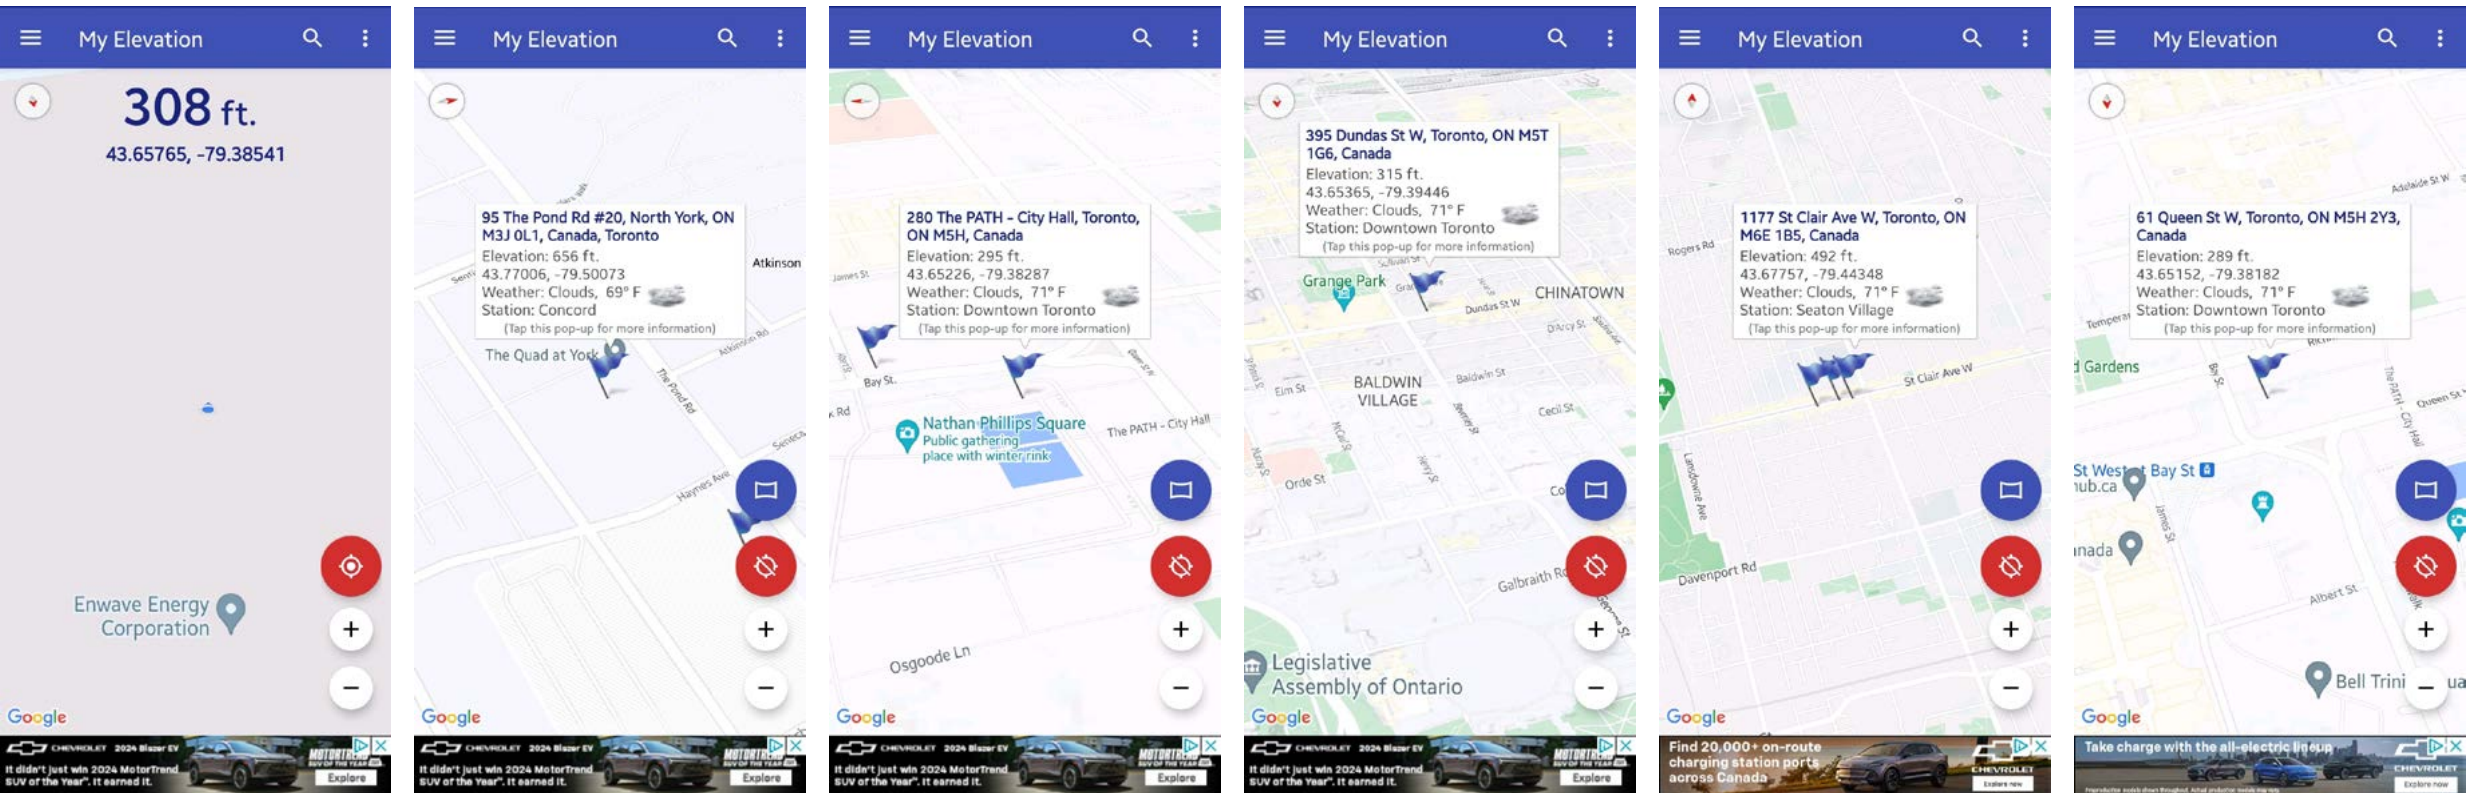

BEA DUNGAN

DATA COLLECTION

The elevation data was collected from My Elevation app which shows the user's current elevation from sea level up to ground level. To be more accurate I added a storey data to show when I am above or below ground. This calculation was added or deducted based on the standard one storey height which is 10 FT.

The elevation data is only recorded from 6:00 AM to 9:00 PM everyday.

DATA COLLECTION

SEPT 19	Elevation	Storey	Total Elevation	Purpose	Notes
6:00 am	308	2	328	Home	1 floor storey is approx 10 FT, Elevation is in FT
